

Przy ostatecznym wyborze koloru, polecamy korzystanie z drukowanego (wzorcowego) próbnika ICA, który można oglądać lub wypożyczyć w większości sklepów z lakierami i farbami. Próbnik prezentowany elektronicznie może odbiegać od wzorcowego w zależności od ustawień i jakości monitora, na którym jest wyświetlany.

In the final choice of the color, we suggest that you use as a reference a printed ICA color sampler, which can be looked at or borrowed from most varnish and paint stores. The color samples presented online might differ from the original reference samples, depending on the settings and quality of the monitor used.
